HIGH VOLUME SHOOTS FOR THE DAY

WITH LITTLE TIME AVAILABLE YOU CAN STILL EXPERIENCE TRUE ARGENTINE
HIGH VOLUME DOVE SHOOTING LOCATED AN EASY 2.5 HOUR DRIVE FROM BUENOS AIRES.

MOST HUNTERS ARE AWARE OF THE SPECTACULAR DOVE HUNTING IN OTHER ÁREAS OF ARGENTINA. THE STORIES ARE ENDLESS OF HUNTERS SHOOTING 1000'S OF ROUNDS A DAY, AND THEY ARE ALL TRUE. BUT LITTLE IS KNOWN OF THE HIGH VOLUME DOVE HUNTING THAT IS AVAILABLE IN THE PROVINCE OF ENTRE RIOS LOCATED ONLY A 2.5 HOUR DRIVE FROM BUENOS AIRES.

This extremely fertile región has an abundance of grain production and freshwater interspersed with thickly wooded roosting areas. This combination of abundant food and cover has created an incredible population of eared doves in the millions. Most hunts take place along established flight paths as doves move between their roost, watering holes and grain fields. The numbers of birds will leave most any hunter truly amazed.

Our new hunt is designed to provide true high dove shoots while providing a much more convenient option than other multi day package hunts available elsewhere in the country. All of this while giving most any hunter all the fast-paced shooting he or she desires.

This hunt is ideal for residents and visitors alike who, for example, may have little flexibility with their schedule, not interested in a 4-day package hunt, want to avoid the trouble of flying, or are interested in the convenience of a quick escape to Entre Rios.

Full-day hunts with early morning departures and same day return to the city that night make it easy to be back for dinner or obligations the following day.
